Our temperature controlled dry warehouses are strategically located throughout the United States and Canada. These **NEMF Logistics** public warehouses are poised to tackle the variety of logistics challenges that you are faced with. With amenities such as high-tech WMS, temperature controlled facilities and consolidated deliveries, our 3PL warehouses are equipped with the services you need, when you need them.

Five Robust Services to Meet Your Needs

TECHNOLOGY

Our Transportation Management System puts the power of industry leading software in the hands of our clients. The information is in real-time so you can make smarter decisions, faster.

LOGISTICS MANAGEMENT SERVICE (LMS)

LMS is a comprehensive solution to help you improve your transportation processes and turn transportation management into a competitive advantage.

ADAPTIVE TMS

A one-of-a-kind service designed to bring the power of technology, together with select 3PL services exactly to your specifications.

BROKERAGE SERVICES

Our Brokerage Services focus on bringing you the best possible carrier at the lowest cost. Focused on excellent service, your shipment will have a coordinator assigned to watch over shipment every step of the way.

WAREHOUSING

Our temperature controlled dry warehouses are strategically located throughout the United States and Canada. With amenities such as high-tech WMS, temperature controlled facilities and consolidated deliveries, our 3PL warehouses are equipped with the services you need, when you need them.
